

Name (skos:preflabel)	Needs Review	Edits Already Done	
Cleveland County Training	According to National Register pdf, two Rosenwald school buildings (1920 & 1927) were on site but no longer extant, only a 1936 extension + 1950 school remain. But unsure why there are two Fisk files: CTS #1 and CTS #2 (Shelby). Schools that expanded tend to have one file with two dates and rebuilt schools have two files but with identical names. Did not add earlier Fisk funding dates/info because was uncertain of this file difference.	Updated Description re: No longer part of church that bought property after school closed. NR application is not for Rosenwald structures, so removed link to modern photo of 1936 addition.	
Nash County Training School	Original entry was named "Nash Training School Administration Building" and cited a "c. 1923 frame Rosenwald-funded administration building" along with a note that "1923/1926 8-room Rosenwald School gone" Fisk file is Nashville CTS for 6-teacher expanded to 8-teacher school and their photo is a frame building. Only other local history page I could find mentions a brick admin building built in 1937, which maybe still exists per Google Streetview? Not sure why entry would be listed this way and omit half the school info. No NR/survey file attached, maybe check with NCHPO?	Added full school description based on Fisk file, funding name as alt_name and added second budget year, school type.	
Pender County Training School (Rocky Point)	Pender County Training School (Rocky Point) - Description doesn't align with other sources / is probably incomplete. Funding documented for two phases of school up to 9 teacher size, plus a teacherage, plus a shop. Flagged for Review.		
Cool Springs School (Warren County)	Cool Springs (Warren Co.) - There is no Cool Springs in Fisk/NC lists for this county. Entry had (Coley Spring?) tag in Name but Coley Springs already has another entry with different location details, so I removed that parenthetical. Description also had "aka Axtell School" probably due to proximity to town but doesn't seem to match records for that school either. A third name suggestion of Columbia was attached to a photo made by an educator doing research (Claudia Stack), but again does not appear to be a great match. Entry has a photo link but no listing file attached from NCHPO data drop. All around mystery. Flagged for Review.	Cleaned up name, added alt_name as given, but...	

	Schools not found on Rosenwald Fund List / Lost Funding Names?		
Rosenwald School at Saint Johns Baptist Church	(Hertford Co.) Saint Johns is not a name in Rosenwald lists for Hertford County, so school funded under different name. No school description given in entry to help. NCHPO entry only named the church also at location.	Added "Rosenwald School at..." to name and noted missing info in Description.	
Halfway Branch	(Pender Co.) - Exact location known and visible on Google but funding name unknown. Road alongside it shares same name. Appears on old maps but schools not labeled in sources I came across in a brief search.		
Apex Colored School	(Wake Co.) Built 1932, 6-teacher brick plan. Wake Co history names specific funding \$ and details but date doesn't match county list for any school and that name is missing in Fisk. Oddly, Atkins High built one year earlier is also missing from Fisk files, although included on Hanchett's list in NC04.pdf. Unless there were Rosenwald grants not from the building fund?		
Weaverville Colored School	(Buncombe Co.) - Name not on lists. Mentioned in DocSouth interview with Geraldine Ray. Two room building with cloak room and partition. On Hillside near Reems Creek?	<a href="https://docsouth.unc.edu/sohp/html_use/R-0128.html">https://docsouth.unc.edu/sohp/html_use/R-0128.html</a>	
Merry Meta	Not on lists, previously documented as Woodard in a survey list. No clarifying info online.		
Crossroads Rosenwald	(Franklin Co) - No info online.		
Siloam	(Mecklinburg Co.) - Mentioned in docs but no clarifying info online.		
Meherrin School	Name not on lists. - No info aside from Meherrin = Amer. Indian people, but that community had own school.		
Little Kelly School	(Pender Co) Entry says "Possibly a Rosewald" No info found online.		
Pine Grove	(Warren Co.) - Not on lists for this county.		
Macedonia School	(Washington Co.) - Entry note has "Afr. Amer school but no evid in Fisk"		
	NCHPO Entry in database listing but nowhere else		
Mallard Creek School	MK1308 Mallard Creek School - Name not on lists. So was either identified and renamed or is just kind of lost. Could not find or recreate without funding name. Ask for NCHPO file MK1308?
